

FRIDAY NIGHT

5:30pm - 9:00pm

PIZZA

Our pizza dough is made using a pre-ferment method called 'Poolish' (which is commonly used in French baking). From beginning to end, the process takes about 60 hours. That time frame, as well as the hydration of the dough (water percentage) and a few other closely kept secrets, is what we believe makes Ikigai pizzas one of the lightest and most digestible pizzas going around. Add to that the fresh ingredients of the toppings and you have a pretty damn good pizza !
